

OUR MISSION

SENCO is dedicated to delivering innovative fastening systems that make hard work easier. No matter where or how you work, we are committed to making your jobsite, workshop, or workplace safer and more productive.

U.S. MANUFACTURING

Since our founding in 1948, Senco has been committed to supporting local communities by creating jobs. From our in-house design and engineering teams to tool assembly, testing, fastener manufacturing, sales, and front-of-house operations, our employees are the driving force behind everything we do at Senco.

Having a well-rounded team allows for more innovative processes, technologies, and products, keeping Senco competitive in an ever-expanding market and meeting the evolving needs of consumers.

INNOVATION

When choosing Senco, you are not only getting the highest quality products - you're supporting American manufacturing. Most Senco fasteners are made at our 500,000 square-foot facility in Cincinnati, Ohio.

At Senco, our mission is simple — make hard work easier. We innovate in several aspects of the tool and fastener manufacturing industry, ensuring we meet present needs of the market without compromising the potential of future generations to come.

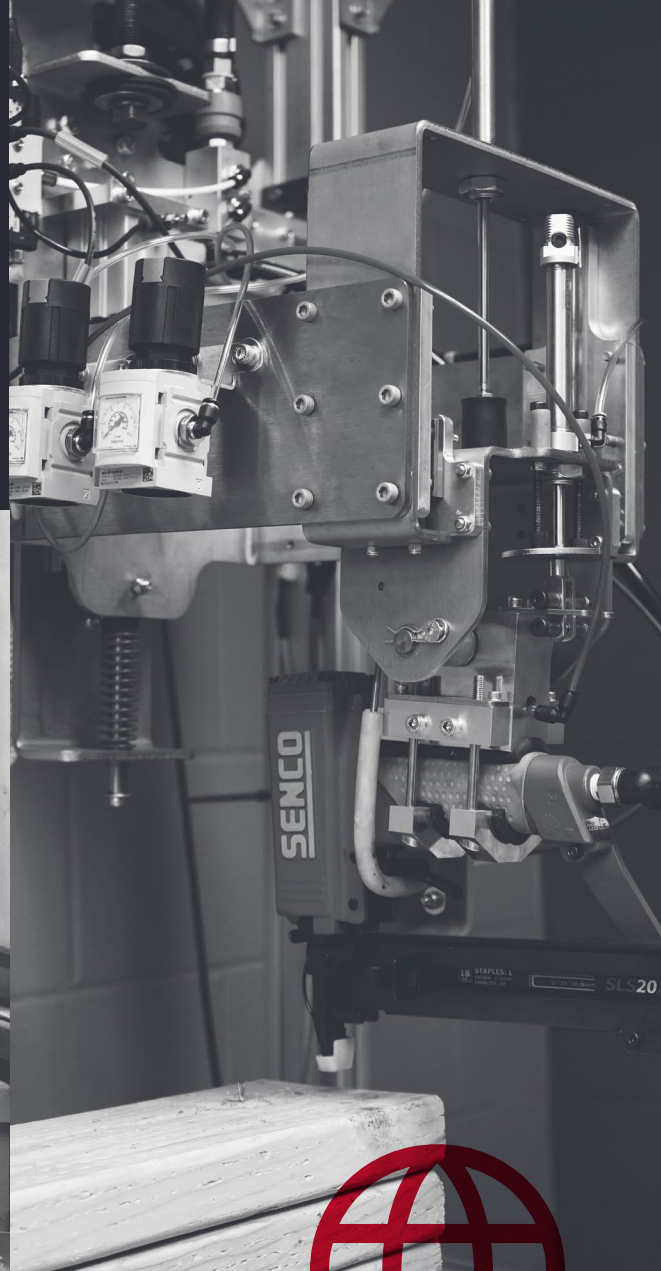

SAFETY

We design our products with safety in mind and have developed resources for the industry to promote safety on their job sites. Senco applies those same practices to our workplace, to ensure the well-being of every employee in our facilities.

COMMUNITY

SENCO supports Homes for Our Troops by hosting an annual charity golf outing, benefiting the organization's mission of providing specially adapted homes for severely injured post-9/11 veterans. Through this partnership, Senco not only contributes monetarily, but also raises awareness and solidarity for the brave men and women who have sacrificed for their country.

RESPONSIBLE MANUFACTURING

RECYCLED STEEL

Each month barges deliver over 2,000 tons of steel rod to Senco's manufacturing facility. All the steel we use to produce our fasteners is made from 100% recycled material that we source from steel mills here in the U.S.

The wire is sent through an in-house cleaning process to ensure superior tape adhesion. From there, it gets drawn down to produce over 700 varieties of fasteners in our manufacturing facility in Cincinnati, Ohio.

Over 95% of the leftover metal scrap from this process is sent off to the other U.S. manufacturers and recyclers, keeping more out of landfills and supporting a circular economy.

REDUCING EMISSIONS

Senco is dedicated to continuously minimizing volatile organic compound (VOC) emissions, a key contributor to air pollution. This not only contributes to a healthier environment for employees, but also fosters a safer atmosphere for the surrounding communities.

Senco is also committed to reducing transportation emissions. By leveraging barge transport, Senco significantly cuts down on emissions, further reinforcing our commitment to sustainability and environmental responsibility.

DURASPIN™

PRODUCTIVITY REDEFINED

DURASPIN® screw systems help you get the job done up to four times faster than bulk screwdrivers and loose screws, improving job site productivity by more than 30%.

APPLICATIONS

Our full line of integrated tools, attachments, kits, and accessories can tackle almost any job including drywall, sub-flooring, decking, metal framing, and a variety of commercial and industrial applications. For projects with tough requirements, our wide selection of ICC and Miami-Dade certified screws will keep your job on target. Check out our next generation of DURASPIN® auto-feed screw systems with enhanced features that redefine productivity and help you get the job done faster and easier.

KEY FEATURES

- Patented corner-fit feed system for better screw placement in tight spaces and corners
- Locking depth of drive adjustment
- Tool-free adjustable nosepiece
- Easily load 50 screws in less than a second
- Trigger lock for continuous operation
- Long-lasting drive bits with quick-slide release

FRAMING, SHEATHING & SUBFLOORS

NAILING THE RIGHT BALANCE OF SIZE, WEIGHT AND POWER

We offer a large selection of pneumatic nailers for a wide variety of applications.

APPLICATIONS

Framing, sheathing, truss building, installing subflooring, decking or fencing, assembling boxes or making pallets.

KEY FEATURES

- Low profile designs allow for easy access between studs and joists
- Highly efficient internal design for increased durability
- Dry fire lock out prevents dry firing and signals when it's time to reload
- Claw-like safety for precise toe-nailing

Experience FUSION® award-winning cordless convenience in all-day, everyday framing tools.

APPLICATIONS

SENCO PROHEAD® PAPER TAPE COLLATED NAILS:

- OFFSET FULL ROUND HEAD DESIGN**
ProHead® nails are recognized in ESR1539 to meet the requirements of a full round head/ concentric nail
- SUPERIOR HOLDING POWER**
ProHead® nails are uniquely engineered with a robust head geometry that beats competitors in pull-through testing
- FEWER PARTIAL-DRIVES AND PULL-OUTS**
ProHead nails feature Sencote®, a proprietary coating that acts as both a lubricant and an adhesive, resulting in more fully completed drives and one of the highest withdrawal values in the industry
- SUPERIOR STRIP INTEGRITY**
SENCO's clean wire manufacturing process yields nail strips that have superior tape adhesion for less broken collation
- MORE NAILS PER STRIP**
Close shank to shank collation allows up to 10% more nails than other 30° -34° paper tape nails
- PROUDLY MANUFACTURED IN CINCINNATI, OHIO**
Every box is uniquely stamped at time of production for Quality Assurance

ROOFING, SIDING & FENCING

WE COVER IT ALL

When it comes to roofing applications or installing siding, uptime is everything. SENCO has designed a full line of tools and fasteners to maximize your productivity. Our RoofPro™ 445XP with its innovative firing valve uses 5% less air. A bi-metal driver blade increases durability and our power in, power out feed system is air driven for stability and speed.

APPLICATIONS

SENCO offers a variety of coil nailers and crown staplers with fasteners optimized for different types of shingles, siding, sheathing, and felt underlayment.

KEY FEATURES

- High-strength housings
- Long-lasting wear plates
- Easy, one-handed operation
- Adjustable depth of drive

SN71P1

ROOFPRO™ 445XP
1¼" COIL NAILER

RF
ROOFING

TOOL OVERVIEW

- Drives 15° coil roofing nails ¾" to 1¼" in length
- Innovative firing valve reduces air consumption without compromise on power & speed
- Bi-metal driver blade reduces wear & improves durability
- Canister metal wear plate reduces canister wear & aids in nail feed
- Adjustable & removable shingle guide for accurate shingle placement

APPLICATIONS

Asphalt & fiberglass shingle nailing, attaching tar paper, metal drip edge & insulation board (vinyl & aluminum siding with optional attachment #HA0308)

SN71P1
2½" 15° COIL SIDING NAILER

15°
COIL

TOOL OVERVIEW

- Drives 15° coil roofing nails 1¼" to 2½" in length
- Dual collation—allows the choice between wire or plastic collation
- Tool-free depth of drive
- High load capacity (up to 375 nails)
- Overmold grip
- Rotatable rafter hook

APPLICATIONS

Siding, decking, exterior trim, fencing, wood shingles, crate, box assembly

PALLETS & CRATING

THE DURABILITY TO DRIVE ALL DAY

SENCO's PalletPro™ heavy-duty coil nailers are built specifically for the challenges of pallets and crating. The PalletPro™130XP can drive fasteners as long as 5⅞" and hold up to 225 nails.

APPLICATIONS

Pallets, crates, heavy-duty framing and truss attachment.

KEY FEATURES

- Durable drivers and bumpers
- Flexible collation deflectors
- Dust guards for safe operation and extended use

Clinch and sisal anvil 18 and 20 gauge staple tools drive ½" and ⅞" crown staples and are ideal for hand-held or mounted applications.

APPLICATIONS

Packaging, corrugated box fabrication, shoe making and bedding – basically any time two materials must be stapled and clinched together.

KEY FEATURES

- High-capacity magazines
- Extended reach capability
- Tool-free adjustable anvil opening
- Bottom-load magazines

PALLETPRO™100XP

TOOL OVERVIEW

- Drives 15° flat wire wound coil nails 1" to 2¼" in length
- High capacity magazine holds up to 350 fasteners
- Tool-free depth adjustment for consistent flush or countersunk drives
- Side steel wear plates reduce abrasion
- Strengthened driver & piston bumper improve performance & durability

APPLICATIONS

Boxes, carton to skid, crate & pallet assembly

PALLETPRO™100XP

AIR COMPRESSORS & KITS

THE INNOVATION YOU EXPECT, THE QUALITY YOU ALREADY KNOW

SENCO has you covered with industry leading compressors that provide plenty of tank storage and air flow for the job site or professional shop.

Many feature an oil-free pump design to reduce maintenance and have integrated panels that provide easy access to control knobs. There's even a compressor equipped with dual couplers so you can run two hoses simultaneously.

Count on quickly getting back to work – we offer compressors that have pump up times of less than 40 seconds. You can easily monitor output pressure with individual tank and outlet gauges. A full line of hoses and accessories is also available.

PC1131

2 HP, 4.3 GAL. TWIN TANK AIR COMPRESSOR

OVERVIEW

- Cast iron cylinder for longer pump life
- Compact twin-stack tank design
- Direct drive pump & heavy duty induction motor for efficient operation

APPLICATIONS

Framing & sheathing, roofing & decking, finish & trim

PC0968

1 HP, 2½ GAL. TWIN TANK FINISH & TRIM AIR COMPRESSOR

OVERVIEW

- 200 Max psi
- Induction motor for extended life operation
- Oil-free pump for maintenance free operation

APPLICATIONS

Framing & sheathing, roofing & decking, finish & trim

PC1280

1½ HP, 6 GAL. PANCAKE AIR COMPRESSOR

OVERVIEW

- Compact & balanced pancake tank design
- Lightweight at only 38 lbs
- Dual couplers allow you to run 2 hoses simultaneously
- Draws only 12 amps

APPLICATIONS

Finish & trim

PC1010

½ HP, 1 GAL. FINISH & TRIM AIR COMPRESSOR

OVERVIEW

- Ultra-quiet motor runs at 68 dBA
- 20 lbs for optimal portability
- Oil-free pump for maintenance free operation

SMARTLOAD AUTOMATION

MOUNTED FRAMING MADE SIMPLE

Fastening solutions that are purpose-built for automated assembly, with extended fastener capacity, reload indicators and a range of remote fire trigger and fastener options. Introducing SENCO's SmartLoad lineup - from the leader in power fastening technology.

WHY WE'RE THE EXPERTS

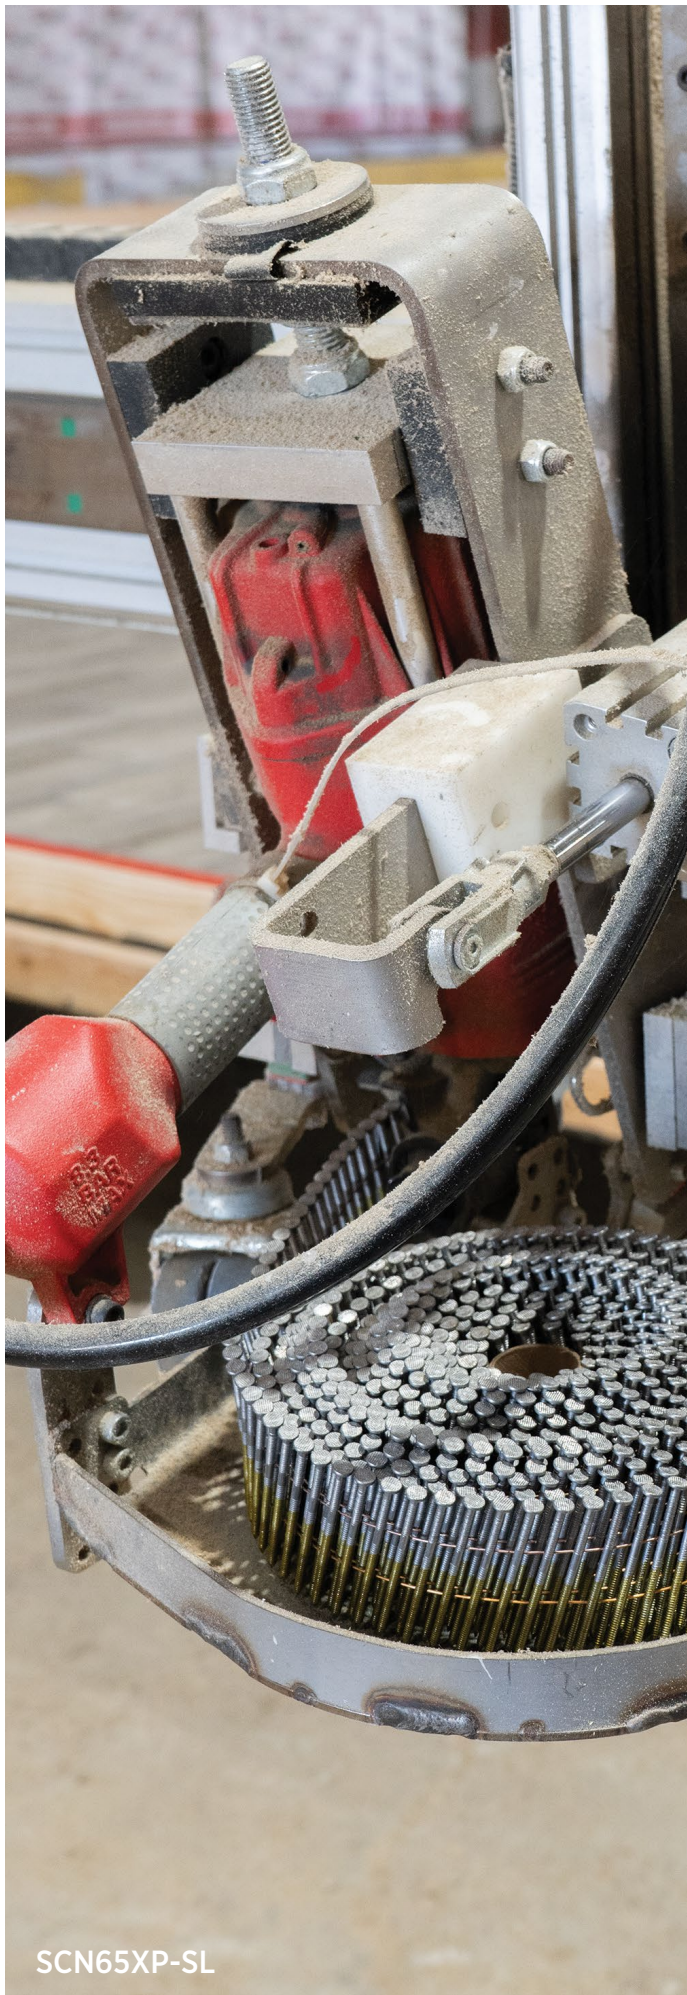

Our tools, accessories and fasteners have been improving the speed and consistency of manufacturing lines for decades. Moving to automated production? We're ready to help.

APPLICATIONS

Mounted framing, subfloor, wall sheathing, pallets, crating.

KEY FEATURES

- Off-the-shelf framing nailers, coil nailers, triggers and fasteners specifically designed for automation systems
- Dependable fastening performance for machine-driven, high-volume assembly of walls, floors, roofs and other wood construction
- Mount easily to most popular bridge systems

POSITIVE REMOTE FIRE TRIGGERS

SENCO's new lineup of Positive Remote Fire Triggers are designed with simplicity & durability in mind. Suitable for all automated applications where a positive remote trigger is required.

- Routine, direct oiling is not necessary
- Include industrial grade air fittings & any required mounting hardware
- Passed grueling lab testing program of over 1 million cycles without failure
- Designed to require minimal air input ensuring reliable high speed operation
